Welcome to the Decking & Railing Collection.

For more than 100 years, homeowners and building professionals have trusted CertainTeed for the highest quality building products, and continually setting the standards for exciting innovations in style and performance.

Today, that spirit of innovation comes to life in the CertainTeed Decking & Railing Collection with the industry’s leading array of colors, styles, and performance. The EverNew® railing product lines offer a combination of superior quality and style that has become the premier choice of homeowners and building professionals.

The comforts of home are no longer defined by four walls. Outside living spaces are “in” as porches, yards and gardens are transformed into beautiful open-air rooms. If you’re longing for the joys of fresh air living, CertainTeed can help. Our Living Spaces® exterior products suite, including siding, soffit and accessories, porch, decking, railing, fence and roofing products, offers everything you need to create and define your own great outdoors.

CertainTeed’s long-standing commitment to innovation, quality and service is firmly rooted in our founding philosophy of “Quality made Certain, Satisfaction Guaranteed.” It’s a promise we take as seriously today as we did a century ago.
Get inspiration, see many other great examples of Living Spaces and join in the dialog about improving your outdoor living space by visiting:

Adding Color to your space…

Dramatic dark railing colors

EverNew’s dark colors are designed to complement almost any deck color, a deep red-brown and a rich yellow-brown are available in both Oxford and Kingston. And our darkest color black is available in all railing product lines, including Panorama®.

No matter what deck material or color you use, EverNew® has a railing to coordinate.
No matter what deck material or color you use, EverNew® has a railing to coordinate.

Color Note: When installing dark colored product, keep stored in a shady/cooler area and out of direct sunlight prior to installation.
Our commitment to safety

CertainTeed products meet stringent requirements for quality and performance. Safe, secure and durable, our railing and deck systems are engineered to provide years of worry-free enjoyment.

Performance that lasts

EverNew® railing products are designed to maintain their integrity over time. Products made of wood may meet code when they’re brand new, but can weaken over time — especially after prolonged exposure to the elements. This is an important concern if you’re installing railing as a safety barrier on balconies and stairs.

EverNew ensures long-lasting performance by building security into every railing system. Our railing features heavy-duty construction for enduring strength. When it comes to rail-to-post connections, simply using plastic brackets isn’t enough. EverNew offers concealed corrosion-resistant stainless steel brackets on our composite railing, and aluminum brackets concealed with molded vinyl covers on our vinyl railing, for critical protection from the elements.

Details make the difference

EverNew railing offers everything you need to install with confidence:

- Heavy-duty rails offer exceptional durability
- Secure rail-to-post connections
- Stainless-steel and aluminum rail mount brackets provide added strength
- Railing heights approved for deck, balcony, porch and stair applications
- Concealed hardware won’t rust or corrode
- Splinter-free surfaces
- Class A flame-spread rating for a safer outdoor environment
- Outstanding warranty coverage with exclusive SureStart™ parts and labor protection

Meeting the standards of the ICC

The ICC (International Code Council) is an independent, nonprofit organization responsible for the development of national model construction codes. The ICC Evaluation Service, Inc. (ICC-ES) is the leading source of technical information on building codes, products and technology in the United States. ICC-ES conducts technical evaluations of building products, components, methods and materials. Building industry professionals look to ICC-ES evaluation reports for evidence that products and systems meet code requirements.

EverNew railing systems comply with the standards established by the ICC. The Panorama® composite railing system and Oxford and Kingston vinyl railing systems have undergone third party testing as designated respectively in reports CCRR-0115, CCRR-0187 and CCRR-0211.*

Sustainability for a lifetime

CertainTeed respects the environment through the responsible development of sustainable building products and systems. CertainTeed EverNew railing products give building professionals and homeowners confidence that the homes they design, build, maintain, and occupy are made with sustainable materials that enhance every project’s performance and beauty.

For more information on CertainTeed’s Life Cycle Assessment Report go to www.certainteed.com/life-cycle-assessment

* Independent testing on Warm Spice, Rustic Rose and Black currently underway.

“On center” installation

All EverNew railing products feature “on center” spacing. EverNew railing products are available in 6’, 8’ and 10’ (nominal) lengths. This size offering equals easier and quicker installation with less waste.

Choose the EverNew system that’s right for you

Vinyl:

- Durable construction – weatherable vinyl exterior with aluminum reinforced rails offers low maintenance
- Precision-fit components provide a snug, secure fit with fast and easy installation
- Safe and sound metal-to-wood and metal-to-metal rail-to-post connections
- Convenient packaging in complete section boxed kits
- Wide variety of accessories, including posts, caps, and post trims that coordinate with all railing systems

Capped composite:

- Solid construction – a blend of PVC and recycled wood flour with high-quality weatherable capstock for low maintenance
- Precision-drilled components provide fast and easy installation
- Secure metal-to-wood rail-to-post connection
- Convenient packaging in complete section boxed kits or packs for easy color mixing and matching
- Designed to work with a variety of vinyl accessories, including posts and handrail

With EverNew, you can rest assured that years from now our products will perform as beautifully and securely as the day they were installed. CertainTeed stands behind the EverNew decking and railing products with exceptional warranty protection, for your added assurance of quality and safety.

All of CertainTeeds decking and railing products are covered by SureStart protection for a specific period. Under this warranty feature, CertainTeed, at no charge, will repair or replace, at its option, any product proven to be defective during the applicable SureStart period (see actual warranty for details).
Panorama with square balusters in white
The Panorama® capped composite railing system features a classic painted wood railing design with handcrafted authenticity and true architectural details you won’t find on any other composite railing. Panorama’s concealed, corrosion-resistant stainless steel hardware provides a seamless appearance and years of worry-free performance. Panorama integrates with CertainTeed’s vinyl accessories, allowing you to create exciting new exterior designs.

- Classic painted wood style with true architectural details
- Top and bottom universal rails with a decorative top rail cap
- Concealed external rail-to-post connection for flat, stair, column and 45° applications
- Available in two heights and two lengths
- Available in three colors: white, almond and black
- Choice of two baluster styles: square composite and decorative steel
- Powder-coated, hot-dipped galvanized steel decorative balusters create a rustic yet customizable system approach for both flat and stair applications
- Suitable for one- and two-family dwellings/townhouses not more than three stories high
- Independent tested as designated in report CCRR-0115 (white and almond)
- Class A flame-spread rating
- 25-year limited warranty with 2-year SureStart™ protection

**Decorative Steel Baluster Styles**

*Refer to product matrix for actual product specifications.

**Decorative Steel Balusters install using patented baluster shoe plugs.
The Solid Look and Feel of Wood Without the Maintenance

Post sleeve
accommodates standard 4"x 4" wood posts in 40", 54" and 108" lengths

Post cap and trim kit
4-1/2"x 4-1/2" square

Panorama in white with twist balusters in antique bronze finish

Panorama with composite square balusters in almond

Panorama with composite square balusters in black
Oxford with square balusters in rustic rose
For safe, secure vinyl railing applications, there's no better choice than the Oxford routed system. The routed Oxford system features a unique internal rail-to-post connection and hidden hardware, so there are no unsightly brackets to detract from the look of the railing. The aluminum reinforced rail connects to a sturdy galvanized post support kit inside the routed post, for a completely concealed metal-to-metal connection.

- "T"-rail top and 2 x 4 bottom rail with hidden hardware system
- Aluminum reinforced rail connects to sturdy galvanized steel post support kit inside the routed post
- Posts routed specifically for all post applications
- Available in two heights and three lengths
- Available in six colors: white, almond, clay, warm spice, rustic rose and black
- Choice of three baluster styles: square, colonial (white and almond only) and glass (clear or smoked)
- Suitable for residential and commercial applications – including multifamily and over three story installations
- Canadian railing code compliant up to 8' span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCRR-0187 (white, almond and clay)
- Meets IBC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection

Color Note: When installing dark colored product, keep stored in a shady/cooler area and out of direct sunlight prior to installation.
Post caps and trims

Aluminum reinforced top and bottom rail*
• 6’ and 8’ lengths standard in flat, stair and steep stair
• 10’ lengths standard in flat and stair

Rail plate
• Made of stainless steel
• Screw flange secures top rails inside post
• Oval cut out works for all flat and stair applications

E-Z Set brackets
• Made of aluminum
• Keeps post square and snug

Sturdy post support pipe
• Hot-dipped galvanized steel
• 1-5/8” outside diameter

Baluster styles
• Square
• Colonial (white and almond only)

4” tempered glass baluster infill
• Clear available in 3-1/2’ only
• Smoked available in 3-1/2’ only

Weather-resistant vinyl post sleeve
• Square available in 3’ and 3-1/2’ heights

Secure post mounting systems
• Post support kits provided for both wood and concrete applications

Attractive precision-fit components

Baluster hole spacing
• Top and bottom rails are routed to accept 1-1/4” x 1-1/4” balusters
• Stair baluster spacing is wider to account for racking

Stair/step section
• Post center spacing on diagonal: 6’ section covers 68” at 32°
• 8’ section covers 90° at 32°, 10’ section covers 117° at 32°
• 6’ section covers 71° at 42°, 8’ section covers 96” at 42°

*Refer to product matrix for actual product specifications.
EverNew glass balusters combine high-end style with the quality and performance features that are distinctly CertainTeed. Our glass balusters are designed to work with either the routed or bracketed Oxford railing system.

- Choice of clear or smoked 4” x 3/8” tempered glass
- Beveled balusters work for flat and stair applications
- 3-1/2’ baluster height provides a clear view
- Routed rails eliminate the need to fasten and screw balusters without extra brackets
- Bracketed and routed post connections
- Suitable for one- and two-family dwellings/townhouses that are not more than three stories high
- Independent tested as designated in report CCRR-0187 (white, almond and clay)
- Lifetime limited transferable warranty with SureStart™ protection
Oxford

Oxford with square balusters in black
Designed for use with existing wood posts, the Oxford bracketed railing system offers everything you need for a safe and secure railing installation. Oxford goes the extra mile with standard features like concealed aluminum rail mount brackets and stainless steel screws, for long-lasting strength and peace of mind.

- “T”-rail top and 2 x 4 bottom rail for sleeve-over installations
- Aluminum rail mount brackets provide a safe and secure, metal-to-metal rail-to-post connection for greater strength and longevity
- Available in two heights and three lengths
- Available in six colors: white, almond, clay, warm spice, rustic rose and black
- Choice of three baluster styles: square, colonial (white and almond only) and glass (clear or smoked)
- Suitable for residential and commercial applications – including multifamily and over three story installations
- Canadian railing code compliant up to 8’ span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCRR-0187 (white, almond and clay)
- Meets IBC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection

Color Note: When installing dark colored product, keep stored in a shady/cooler area and out of direct sunlight prior to installation.
4" x 4" Post caps

Vinyl trim cover
• Sleek design to conceal screws
• Easily altered for close baluster applications

Aluminum reinforced top and bottom rail*
• 6', 8' and 10' lengths standard in flat and stair

Aluminum interior bracket
• The critical rail to post stress point is secured by corrosion resistant aluminum
• Uniquely designed for specific applications

4" x 4" wood post (sold separately)

Baluster styles
• Square
• Colonial (white and almond only)

4" tempered glass baluster infill
• Clear available in 3-1/2' only
• Smoked available in 3-1/2' only

Weather-resistant vinyl post sleeve:
• Square available in 3' and 3-1/2' heights
• Newel available in 3' height

Attractive precision-fit components

4" x 4" trim

Baluster hole spacing
• Top and bottom rails are routed to accept 1-1/4" x 1-1/4" balusters
• Stair baluster spacing is wider to account for racking

Stair/step section
• Post center spacing on diagonal:
  • 6' section covers 68" at 32°
  • 8' section covers 90" at 32°,
  • 10' section covers 117" at 32°

*Refer to product matrix for actual product specifications.
Oxford Gate Kit
Improved design for enhanced performance and easier ordering
• Heavy duty internal aluminum frame
• Stainless steel fasteners
• Features 2x4 rails
• High quality gate hardware
• Available in all colors, both heights, and square & colonial balusters
  (colonial style available in white and almond only)
• Self closing hinges
• Easy to assemble

Secure Connection
Aluminum brackets and corrosion-resistant stainless steel screws complete the connection between post and rail to provide a strong and reliable system.
Kingston with square balusters in warm spice
Kingston offers premium features you’d expect to find on higher-end systems, including high-quality aluminum rail mount brackets for superior safety and security. Secured by provided stainless steel fasteners, the aluminum brackets are completely concealed by molded vinyl covers, so you never have to worry about rust or corrosion.

- Classic bread-loaf rail design (on both top and bottom rails) for sleeve over applications
- Aluminum rail mount brackets provide a safe and secure metal-to-metal, rail-to-post connection for greater strength and longevity
- Unique molded vinyl bracket covers designed for flat, stair, column, 45° and 22-1/2° applications
- Available in two heights and three lengths
- Available in six colors: white, almond, clay, warm spice, rustic rose and black
- Choice of two baluster styles: square available in all six colors and traditional in white and almond
- Suitable for one- and two-family dwellings and townhouses not more than three stories high
- Canadian railing code compliant up to 8’ span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCRR-0211 (white, almond and clay)
- Meets IRC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection

Color Note: When installing dark colored product, keep stored in a shady/cooler area and out of direct sunlight prior to installation.
4" x 4" Post caps

Vinyl trim cover
- Sleek design to conceal screws and streamline appearance
- Easily altered for close baluster applications

Rugged aluminum reinforced top and bottom rail*
- 6', 8' and 10' lengths standard in flat and stair (10' flat only)

Aluminum handrail component system

- Complies with ADA (Americans with Disabilities Act) requirements for grippable handrails
- Aluminum construction reduces bowing and provides enduring strength
- 1-1/2" diameter gripping area
- Continuous handrail runs
- Safe for stair and ramp applications
- Functional finishing touches: post and wall returns, end caps, return loops and a convenient straight joiner
- Unique adjustable joiners accommodates any transition – 0˚ to 90˚ bends
- Installs easily on site with no preformed fittings
- Ideal for use with EverNew railing systems
- Virtually maintenance free
- Lifetime limited warranty
- EZ Set bracket kit available for attachment to routed system

Note: Handrail depicted is not free standing and must be anchored to walls or guardrail using handrail bracket assembly (74028/74029). Space a maximum of 6’ on center and as close as possible to both sides of any joint. (ADA compliant at 6ft spans)
EverNew Gate Kits

EverNew gates feature a heavy-duty internal aluminum frame for sturdy construction that’s built to last and stainless steel fasteners to prevent corrosion.

- Available for Oxford and Kingston railing systems
- Kit includes all parts needed to build a railing gate up to 60” wide
- Aluminum reinforced uprights and rectangular rails
  - Balusters
  - Upright caps
  - Stainless steel screws
  - Black nylon gate hinges (self closing)
  - Latch
EverNew® Vinyl

EverNew Vinyl Decking in gray
Panorama® with square balusters in white
Vinyl Decking

Available in 12', 16' and 20' lengths
No visible screws or exposed hardware
Easy to clean, non-porous vinyl surface

UnderShield® creates new possibilities for your home.

A beautiful deck is easy to love, from the top. Now, you can love your deck from underneath as well, with the beautiful possibilities of UnderShield®. A unique, vinyl shield and ceiling system, UnderShield turns an unsightly deck underside into a dry, beautiful ceiling, creating limitless options for new exterior living spaces.

The UnderShield product is designed as a water diversion system under normal weather and rain conditions; however, it is not a waterproof roof system. Proper clearing and flushing of debris by the property owner is important to allow the rain water to flow unobstructed to the exit point and to not create excess weight buildup on the surface of UnderShield. The system can temporarily experience minor drips. Occasional droplets on the underside also could result from normal condensation. Having a qualified professional install and follow the installation instructions carefully is necessary for best performance.

Beaded panel in colonial white shown with gutter collection system.

Custom Restoration Millwork® columns and brackets, combined with the UnderShield Water Diversion System, creates a formal yet inviting area.

Under the deck is a perfect area for storage of frequently used outdoor toys, lawn and garden equipment and more.
DECKING ACCESSORY

UnderShield is designed to respond to the needs of building professionals and homeowners, making it easy to install new or existing decks, and will maintain unobstructed airflow when properly installed. Panels can run parallel or perpendicular to the home, and an easy-to-use clip creates the desired pitch.

- Low maintenance water diversion system
- Easy to install adjustable grid system
- Concealed clip system
- Stainless steel hardware provides security and lasting performance
- High quality vinyl panels available in 6" x 16'
- Installs under the deck joist
- No need to worry if the framing is 12" or 16" on-center
- No concern with bracing between joists
- Helps maintain the required ventilation under the deck for most composite deck boards
- Choice of two panel styles: beaded or chamfer
- Panel hook system creates a tight and secure panel lock
- Available in three colors: colonial white, sterling gray or savannah wicker
- Suitable for one- and two-story residential applications
- Class A flame-spread rating
- Lifetime limited warranty

UnderShield is available in beaded or chamfer panels (A). System also includes clips (B), grid system (C), fascia panels and stainless steel hardware (not shown).

As precipitation drips between deck boards it is collected directly below by UnderShield and diverted away leaving a dry space under your deck. (Gutter sold separately. Not a CertainTeed product.)

Water drips on the panel surface may appear for various reasons including, but not limited to, dirt/debris build up and normal condensation.
Porch Accessories

CertainTeed Structural Porch Posts, Columns and finishing accessories complement any project, no matter which railing style or system is chosen.

- Pivoting mounting plate for easy installation of porch post
- Aluminum reinforced for rigidity and strength
- Load bearing
- Tie-down connection of porch post eliminates need for separate hurricane tie-down kit
- No overhead jacking required
- Class A flame-spread rating

Colonial 5" x 5" 108" length
Colonial 4" x 4" 108" length
Square 5" x 5" 108" length
Tapered Round Column 8" & 10" 108" length
Non-tapered Round Column 8" 108" length
Square 8" 108" length

Tie-down mounting plates and 4-piece post trim kits for top and bottom included with the post.

Cap and base trim sets sold separately, required for installation.
Designed to coordinate with CertainTeed’s vinyl decking and railing products, Certa-Snap® Wrap delivers all of the low-maintenance benefits of vinyl posts without having to replace existing wood porch posts.

- Specially designed for existing wood posts
- 8-piece system — 4 vinyl post sections plus 4 corner trim pieces
- Components snap together for easy installation
- Available 4” x 4” or 6” x 6” in 10’ lengths — can be field cut to any length
- 4-piece post trim for top and bottom sold separately
- Class A flame-spread rating
